EDUCATION & TRAINING INTERNATIONAL
TAFEWA • SENIOR COLLEGES • SCHOOLS

THE ORGANISATION

Education and Training International (ETI) is part of the Western Australian Department of Education and Training, charged with coordinating the international activities of Western Australian government

- schools,
- senior education colleges, and
- Technical and Further Education Western Australia (TAFEWA) colleges.

In conjunction with partners across public and private sectors, ETI offers a system-wide approach to education and training programs in countries across the Middle East, Asia, Africa, the Pacific Ocean, the Indian Ocean rim and Europe.

ETI has privileged access to the experienced policy and administration experts within the Department and other areas of Western Australian State Government.

With world class specialists and resources, ETI delivers a comprehensive range of project management, education and training consultancies and related solutions both overseas and within Australia.

OUR SERVICES

Education and Training Consultancy

ETI has a highly skilled project management team with experience delivering international education and training consultancies. ETI will develop a consultancy brief, detailing the consultancy scope and outcomes. ETI has previously provided consultancies in:

- Developing a national qualifications framework
- Reviewing and redeveloping education legislation
- Planning and costing centres of excellence
- Developing a range of education and training policies and procedures for government and industry

Professional Development for School and Vocational Educators

ETI can facilitate in-service training for school educators and vocational trainers in a number of fields including;

- Student diversity and student needs
- Assessment and reporting of student learning
- Retention and participation strategies
- School leadership
- Building capacity in school communities
- Developing teachers' skills
- Knowledge and understanding in specific curriculum areas
- Competency-based training
- Developing training materials
- Lecturing and Assessing

Vocational and Technical Education Design and Delivery

ETI is a leader in services relating to all aspects of the training design and delivery including;

- Training needs analysis
- Workplace assessment and training
- Recognition of prior learning
- Delivery models
- Training for industry
- Assessment methods
- Quantitative and qualitative program evaluation
- Quality assurance programs

Industry Focussed Training

ETI, through TAFEWA Colleges, offers vocational education and training in the following areas:

- Agriculture, Forestry and Fishing
- Process Manufacturing
- Automotive servicing
- Building and Construction
- Travel and tourism
- Information and Communication Technology
- Health and Community Services
- Mining, Oil and Gas
- Metals Manufacturing and Engineering
- Sport and Recreational Services
- Retail services
- Property and Business Services
- Hairdressing, Massage and Beauty Therapy
- Transport, Warehousing and Storage
- Finance and Insurance
- Printing and Publishing

CLIENTS

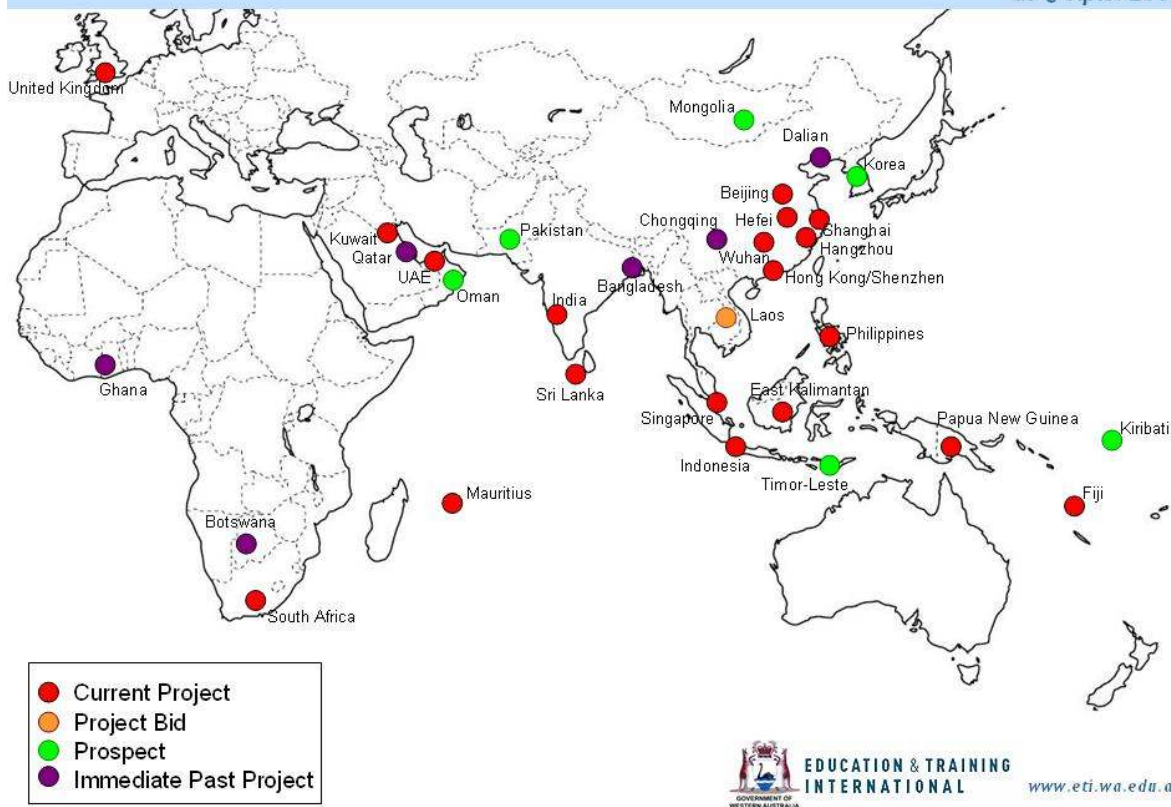

ETI clients range from Government organisations, such as the Ministry of Education in Fiji, to international corporations such as Leighton International Limited, to individual colleges in a range of countries wanting to deliver Australian Vocational Qualifications, develop competency-based training and quality assured systems, advice on K-12 education or education consultancies.

ETI has the depth and breadth of services to meet the education and training needs of any client.

ETI has worked on World Bank projects, AusAID funded projects, host-nation funded projects and self-funded commercial projects. We have the expertise to meet the reporting requirements of all clients.

International Projects Focus - Schools, Senior Colleges, TAFEWA

as @ April 2009

LOCATIONS

ETI works across the globe, but prefers to focus on Western Australia's near neighbours in Asia. ETI has managed and coordinated international training and education projects in the Pacific Islands, South East Asia, China, the Indian subcontinent, the Middle East and Africa.

ETI works in close conjunction with the Western Australia Government Network, utilising their offices in Indonesia, Malaysia, Japan, China, India, Dubai, the United States of America and the United Kingdom.

Restrictions

ETI must abide by the Department's policy regarding travel. No Departmental staff may travel to countries or areas within countries under a DFAT Travel Advice of Level 5 "Do Not Travel". ETI can only accept work with a client based in a Level 5 location if:

- Any required face to face work can be undertaken outside the Level 5 area, in another country or in Australia.
- The client's needs can be met through the use of technology, such as online learning
